### UPDATE

## Sanitary Sewer and Water Infrastructure Improvements

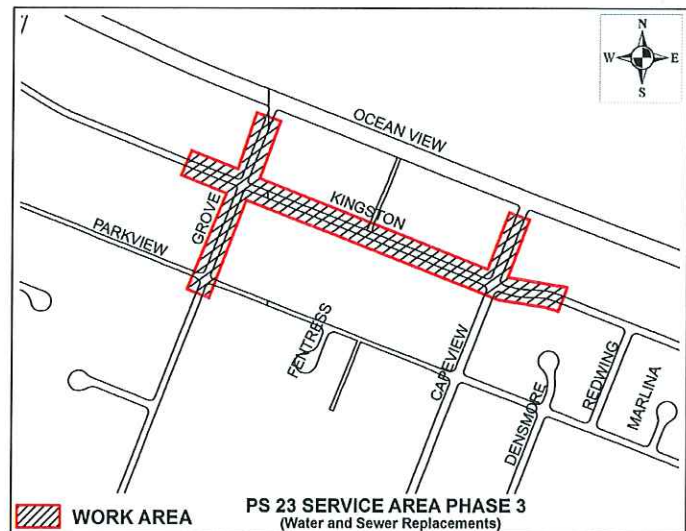

### Planned for Bayview

Work set to begin in November

Dear Valued Customer,

The construction to improve the water and sanitary sewer infrastructure in the area shown on the map to the right is scheduled to begin sooner than originally anticipated.

The City's contractor, Tidewater Utility Construction, Inc., is planning to begin work in the area of Grove Avenue by the week of November 17<sup>th</sup>. Anticipated completion of the project is fall of 2015. Prior to construction you may notice utility markings and survey work in the neighborhood.

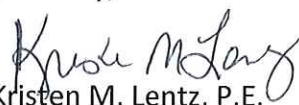

The City and our contractor will do our best to minimize the unavoidable disruptions associated with the construction.

If you have any questions regarding this project, please do not hesitate to contact the City's on-site construction inspector, Rhonda Wyda. She can be reached by cell phone at 651-8433 to respond quickly. You may also contact the project manager, Leticia Quejada, at 664-6768.

The Department of Utilities appreciates your patience during this project and looks forward to providing you with improved sanitary sewer and water infrastructure.

Sincerely,

  
Kristen M. Lentz, P.E.  
Director of Utilities
